On Saturday a US Army RC-12N aircraft landed in Winona and was met by family and friends of the pilot and co-pilot. The aircraft's officers were CWO-4 Craig Maurer (3rd from left) and CWO-4 Krist Beseler (4th from left) stationed in Savanna GA. Officer's Maurer and Beseler were on a training mission in the area and decided to contact their families and make a quick stop in Winona.

The Beech RC-12N aircraft is used (according to Google.com) in Iraq and Afghanistan with a "SIGINT" role. That is, "Signal Intelligence". With the aircraft and sophisticated equipment aboard, the military is able to monitor VHF, UHF, Cell Phone, and other forms of radio communications. They are also able to home-in on the location of those radio signals being monitored, thus providing accurate intelligence to military commanders in the field.

The correct answer to the **QUESTION OF THE MONTH** is "A"
